THE THURNESS-WRIGHT COMPANY

Set 'em a Goling.

What a craze for investigation Governor Harman seems to have started by thrusting the probe into state house graft scandals. Almost before the words, "an infamous lie," had left the ruby lips of Hy Davis, the Republican attorney general was on his way to the court house with the first of the graft cases; State Auditor Fullington (Rep) publicly proclaimed that he was going to stand by Governor Harman, State Secretary Thompson (Rep) said that if there was anything wrong it ought to be exposed; certain Republican editors not so purblind as others, were saying that the probe should go to the bottom about the same time that the clackers of the G. O. P. bosses were accusing the governor of probing for political purposes. But just see what has followed in rapid order.

The Republican state board of public works has called upon the Republican attorney general to probe canal land steals that have been going on unhindered during past Republican administrations—although Mayor Tom L. Johnson "beat 'em to it" by going after a big central steal in Cleveland.

The Republican banking examiner is examining the banks.

And, lo and behold! in comes Phipps, Republican oil inspector, with the revelation that he has been secretly probing a lot of oil companies that he suspected of cheating the state, which accounts for the few months on missions which might have caused John Sullivan, Republican state printer, to suspect that his old friend was sitting up pins to secure the Republican nomination for secretary of state.

Beats the deuce! And only six weeks ago the unsuspecting G. O. P. editors who do the bidding of the bosses were chirping in chorus, "there ain't no graft!"

If Governor Harman is kept in the state house two years longer there will not be one G. O. P. editor left in Ohio with nerve enough to get up and accuse him of "playing politics" with the dusty and musty records of recent years.
